[Special telegram to the Dispatch.] PERRY, Ga., October 29 .- The hang ting of Tom Woolfolk to-day was the closing chapter of a tragedy which stands | deed was successful. unequalled in the history of American murders for its atrocity and fiendishness. Committed over three years ago, its details have become more and more horrible as related by those who were early on the scene. Thousands of the good twice the case was carried to the Supreme Court, once in the prisoner's favor and the last sustaining the lower court. In-round figures the county has been forced to spend \$20,000 first and last for his half dozen trials and mistrials.

EFFORTS TO ESCAPE, A dozen times the famous prisoner attempted to break jail, succeeding one tin in getting a portion of his body through an outer wall, when he was detected and hauled back. PLAYED CRAZY. For three weeks one time he fasted the jail corridor where he talked for and tried to frighten the jailer by playing crazy, and it was not until a few weeks ago that he returned to his former normal condition and showed the true normal condition and showed the true character of the man—brutal, sullen, and revengeful. Shortly before his crime Woolfolk ran away from Macon and married a young lady to spite his step-mother. The marriage proved to be an unhappy one, especially for the girl, who was a most excellent young lady.

All these led from 2 o'clock until 4. He got up at 8 up to the slaughter which took place between midnight and day on August 6, The chickens were just stirring for half an hour, on that eventful morning when a negro laborer living only a few hundred yards from the Woolfolk house was awakened by the step-son Tom, who was calling loudly for assistance.

HAD KILLED ALL THE FAMILY. When the negro responded young Woolfolk told him that some one had broken into the house and had killed all the family. The frightened negro refused to go to the house, and the step-son retraced his steps only to return a second time after an absence of ten minutes. "I tell you they are dead," he said, and then he ordered some boys to go and tell the neighbors. The boys skipped off, and by dawn a score of farmers were on the scene. When they entered Captain Woolfolk's bed-room a most sickening sight met their gaze.

A PRIGHTFUL SPECTACLE. On the bed lay the form of the popular citizen and farmer; across his body, as if she had risen to protect him, lay the dead body of his wife; between them the eighteen-months old babe, while across the foot of the bed the body of the beautiful seventeen-year-old daughter Pearl, her legs dragging on the floor; on the floor by the door the manly form of Richard F., Jr., aged twenty-one, and by his side five-year-old Charlie. The skull of each had been Charlie. The skull of each had been dying declaration that he was innocent crushed in by a blow from the head of of the crime for which he was being an axe, and their faces and arms bore executed. The walls were bespattered with blood and brains, while blood ran in streams across the floor, and ghastly eyes and features told the

tale of horror. ANOTHER GHASTLY SIGHT.

Almost as sickening to their eyes was the scene in the bed-room across the hall from that of Captain Woolfolk's. There Pearl and her little sisters and aunt had slept. The aunt, Mrs. Temperance West, aged eighty-four, lay in her bed, her brains oozing out of a large gash. Across the foot of the bed lay the body of seven-year-old Rosebud, a bright and loving child, and crouching by the window, under a sheet, lay Annie, of ten, both with their heads split open and gashed terribly. There also blood was everywhere, and women fainted while strong men turned sick.

THE ONLY SUBVIVOR.

But one had been spared. He lay on the front porch on a pallet during investigation, feigning sickness, obsti-nate, sullen, and peculiar in his actions. Though a man of twenty-seven years, by his own confession when he heard by his own confession when he heard the first blows received by his father he hed jumped out of his bed and through an open window, leaving the others to their fate, and finding all still, had returned in the darkness, feeling the bodies, and finding all dead before he gave out the second alarm for the neigh-bors to come. THE MURDERER'S PLAN.

His first alarm had been to get the negro to come to the house with him, but the superstitious darky saved his own life by his refusal, as it was evidently the intention of the brute to get him to the house and then kill him, making it appear that the negro had done the bloody work and that Tom had killed him. Finding that the negro would not go Tom was at his rope's end and then had the neighbors called in.

Now, let's play fair. If we let your sugar in free, you must let our flour mito your country. This seems like a very sensible proceeding. I wonder that we did not think of it before. When

the roll was finally called there was not one Democratic man to vote for it, after they had said it was a good idea. If the Democrats had a good idea the Republicans would stand by them. But the Democrats won't stand by us unless the Republican party is divided. I do not call that wise financiering or patriotic conduct. We should not divide when the prosperity of this country is involved. An American is a great deal bigger man than either a Republican or a Democrat. [Cheers.] I think any ground was covered with snow and a himself smaller if he will stand in the drizzling rain was falling when the train | way of American progress because it

of the Constitution heretofore adopted. The famous section 5 of the franchise report was again thrust into prominence this morning by Colonel Muldrow's motion to reconsider, his purpose being to propose a striking out of the provision whereby voters must be able to read the Constitution or understand the same or give an intelligent interpretation thereof. Although heroic efforts have been made by certain newspapers to create sentiment against this classe, the convention, by a vote of 67 to 33, declined to reconsider.

The famous section 5 of the franchise report was again thrust into prominence to see the distinguished speaker. An early train from Goshen brought in over 400 men with a brass band. Hundreds for famous intelligent interpretation thereof. Although heroic the form a shout went up that shook the old building to its foundation.

WHAT'S THE MATIER WITH BLAINE?

The countrymen yelled: "What's the matter with Blaine?" "He's all to 33, declined to reconsider.

RETURNING TO HIS HOBBY. A Democratic newspaper this morning says: "Reciprocity is placed where we do not need it, and a tariff instead, where we do need it." They want it in Eng-Democratic party can call public atten- wages in this country then.
